Hexetidine: in mouthrinses for supragingival plaque control, July/Aug. 165

High school athletes: orofacial injuries in, Sept./Oct. 228-229

Hip arthroplasty; total, antibiotic prophylaxis in susceptible patients with, May/June 132

HIV, Sept./Oct. 245 setback, Sept./Oct. 220

HMO setting: endodontic referral patterns in, Sept./Oct. 226

Home bleaching kits: carbamide peroxide, comparison of three, July/Aug. 176-177

Hormones: thyroid, interaction with vasoconstrictors, Sept./Oct. 209

Host modulation: in periodontal disease, Mar./Apr. 65 Human immunodeficiency virus, Sept./Oct. 245 setback, Sept./Oct. 220

Hydroxyapatite-coated implants

better integration and stability for, May/June 125 effects of cleaning methods on, Jan./Feb. 34-35

late results, suboptimal, Mar./Apr. 80 Hydroxyzine: guidelines for, Jan./Feb. 7

Hylorel: interaction with vasoconstrictors, Sept./Oct. 209 Hyperplasia: gingival, due to nifedipine, May/June 135-136 Hypersensitivity

amalgam contact, causing oral lichenoid lesions, July/Aug. 157 dentin

cervical, laser therapy for, Jan./Feb. 36 effect of fluoride varnish plus Nd:YAG laser treatment on, Sept./Oct. 234-235

Hypodermic needles: practical uses beyond injections, July/Aug. 148

Hypogeusia: after radiation therapy of head and neck, management of, Sept./Oct. 214 HypoSafety, Nov./Dec. 277

Hytac: in children, Mar./Apr. 70

Imaging systems: digital, pros and cons, Jan./Feb. 23 Immune globulin: hepatitis B, after occupational expos July/Aug. 152 Immunoassay: Evalusite, May/June 134

Immunodeficiency virus, human, Sept./Oct. 245 setback, Sept./Oct. 220

Implant(s)

ancient Gallo-Roman, July/Aug. 189 bone loss and, alveolar, Jan./Feb. 21 complications, literature review, Sept./Oct. 203 failure, identifying reasons for, Sept./Oct. 202 framework fit, evaluation in clinical practice, Mar./Apr. 60-61

full-arch immediate, Mar./Apr. 79-80 hydroxyapatite-coated (see Hydroxyapatite-coated

malpositioned, segmental osteotomy for correction of, Jan./Feb. 14

placement

surgical guide with stainless steel sleeves for, Jan./

surgical referral for, trends in, July/Aug. 177 prostheses supported by both implants and natural teeth, preventing tooth intrusion in, Jan./Feb. 22 replacement of molars, 5-year results, Sept./Oct. 230-231 short, 6-mm, in patients with reduced alveolar bone height, Mar./Apr. 81

soft tissue around, preventive maintenance of, May/June 105-106

 -supported dentures, complete, preservation of mandibular ridge with, Nov./Dec. 281

-supported fixed prosthesis, step-by-step sequence for, Nov./Dec. 258-259

surfaces, effects of cleaning methods on, Jan./Feb. 34–35
-tooth combination as abutments for posterior fixed
partial dentures, Sept./Oct. 230

Impressions

first impressions count at dental visit, July/Aug. 168 preventing extraction of mobile teeth while making, Sept./Oct. 213

In-Ceram Alumina, Mar./Apr. 61

Incisal edge

fractured, reattachment of, Nov./Dec. 271–272 maxillary central, in esthetic treatment planning, Nov./Dec. 257–258

Incisors, mandibular

canal morphology of, Jan./Feb. 32-33

lost to periodontitis, reinforced composite-bonded bridges replacing, July/Aug. 183–184

Income, low (see Low-income)

Inderal: interaction with vasoconstrictors, Sept./Oct. 208 Infants: fluoride varnish in, Sept./Oct. 212

Infection

after anesthesia, local, prevention and management, Jan./Feb. 7

maxillofacial, treatment of, and antibiotic resistance, Sept./Oct. 210–211

oral, relation to systemic diseases, May/June 109 Infectious diseases: emerging, what dentists need to know

about, Sept./Oct. 245
Infective endocarditis: and dental treatment, Mar./Apr. 83

Inflammation: gingival, effect of chlorhexidine-containing chewing gum on, Nov./Dec. 293

Inflammatory disease: periapical, diagnosis, July/Aug. 155Informed consent: enhanced, for orthodontic treatment of patients with temporomandibular joint disorders,Sept./Oct. 206–207

Injection

anesthetic, local, alternatives and adjuncts to, Mar./Apr. 57

pain of local anesthesia, prevention and management, Jan./Feb. 6

techniques, intraosseous, intrapulpal, and periodontal ligament, for difficult-to-anesthetize teeth, Jan./Feb. 8 Injuries

(See also Trauma)

ergonomic, career-ending, Sept./Oct. 216 orofacial, in high school athletes, Sept./Oct. 228–229

ororacia, in high school athletes, Sept./Oct. 228–229
Illay(s)
all-ceramic systems for, Mar./Apr. 61
ceramic, CEREC, 4-year survival rate, Sept./Oct. 242

Empress, 4-year results, Sept./Oct. 241–242 posterior, ceramic or composite, 1-year results, Jan./Feb. 48

in posterior restorations, July/Aug. 187

Instructions for patients: postoperative, simplification of, May/June 108-109

Instruments

dental, inexpensive, for improved dental care, Jan./Feb.

in evaluation of implant framework fit, Mar./Apr. 60-61 Interclean Interdental Plaque Remover, Nov./Dec. 279 Interdental

brushes, manual use of, vs. electric interproximal cleaning device, Nov./Dec. 279

plaque, using toothbrush like a toothpick removes,

Ian./Feb. 42–43

stripping, preventing white spot formation during, Jan./Feb. 16

Interferon

-β in hepatitis, July/Aug. 152 /polyethylene glycol in hepatitis, May/June 120 /ribavirin in hepatitis, May/June 120 Intermediate Restorative Material: as root-end filling material, July/Aug. 148

Interproximal cleaning device: electric, ps. manual devices, Nov./Dec. 279

Intrabony defects

guided tissue regeneration in, Mar./Apr. 88 use of bioactive glass in, Jan./Feb. 42

Intraoral herpes simplex virus ulcers: recognition of, Mar./Apr. 84

Intraosseous injection

for difficult-to-anesthetize teeth, Jan./Feb. 8 Stabident, during pulpalgia treatment, Mar./Apr. 79 Intrapulpal injection: for difficult-to-anesthetize teeth,

Jan./Feb. 8
Intrusion: prevention in prostheses supported by both implants and natural teeth, Jan./Feb. 22

Iodine potassium iodide: use in endodontics, Jan./Feb. 9 Ionomer, glass (see Glass, ionomer)

Irgasan: for hand washing, Jan./Feb. 30

Iriscan, Jan./Feb. 27

Irrigation solution: 2% chlorhexidine as, July/Aug. 176
Ischemic heart disease: medical management update,
July/Aug. 158–159

Isopropranolol: effect on bacteria and biofilms in dental unit water, May/June 125

Ivoclar Vivadent, Nov./Dec. 261

Joint, temporomandibular (see Temporomandibular joint) Journals

manuscript acceptance by, improving odds of, May/June 118

refereed, importance of, May/June 139

K

Kenalog-in-Orabase: for recurrent aphthous ulcers, May/June 131-132

Keratinized tissue: root coverage procedures based on amount of tissue needed, May/June 133-134

Ketac-Molar: in children, Mar./Apr. 69 Ketac-Silver: in children, Mar./Apr. 69

Ketorolac: vs. acetaminophen with codeine in acute apical periodontitis pain, July/Aug. 179–180

L

Lamivudine: in hepatitis, May/June 120

Laryngospasm: after outpatient anesthesia, Sept./Oct. 223 Laser

Er:YAG, effect on cementum, Mar./Apr. 81–82 Nd:YAG, plus fluoride varnish, effect on dentin hypersensitivity, Sept./Oct. 234–235 pointer, improved dental care with, 12

therapy

for cervical dentinal hypersensitivity, Jan./Feb. 36 osteonecrosis due to thermal injury from, May/ June 106

Latex allergy, May/June 103

Layering: of posterior composites, Jan./Feb. 23 Lead exposure: and caries, Sept./Oct. 225

Legal obligations of dentists

in identifying and reporting suspected cases of child abuse, Jan./Feb. 28

toward hearing-impaired patient, Sept./Oct. 218

Leucite-reinforced glass-ceramic crowns: results, July/Aug. 184

Leukoplakia: of maxillary vestibule, association with Viadent,
May/June 129
Leyothyroxine: interaction with vasoconstrictors. Sept./Oct.

Levothyroxine: interaction with vasoconstrictors, Sept./Oct. 209

Licensure examinations: clinical, ethical lapses in, Nov./Dec 276

Lichen planus

apical, diagnosis and treatment, July/Aug. 155

diagnosis and management, July/Aug. 158 malignant transformation of, Nov./Dec. 283

Lichenoid

drug eruption, diagnosis and treatment, July/Aug. 154 lesions, oral, due to amalgam contact hypersensitivity, July/Aug. 157 $\,$

reaction, contact, diagnosis and treatment, July/Aug. 154–155

Lidocaine

carcinogenicity of, Mar./Apr. 66

interaction with vasoconstrictors, Sept./Oct. 209
Ligament injection: periodontal, for difficult-to-anesthetize

teeth, Jan./Feb. 8 Light

-curing

composites, light-emitting diode technology offers better method of, Sept./Oct. 243 methods, advances in, July/Aug. 163 techniques and technologies, May/June 114 tips, effect of autoclaving on, Jan./Feb. 46 units, depth of cure differences among, May/June 137–138

 emitting diode technology offers better method of lightcuring composites, Sept./Oct. 243

iners

cavity, comparison for preventing temperature sensitivity, Jan./Feb. 46-47

resin, adhesive, under amalgams, effect on sensitivity, Mar./Apr. 93-94

Lip

cancer

detection and prevention of, July/Aug. 153–154 trends in, 60-year, May/June 130–131 mobility and maxillary central incisor edge, Nov./Dec.

258 sunscreens in prevention of lip cancer, July/Aug. 154

Lipid-lowering treatment: niacin, causing dental and gingival pain, May/June 110

Lobucavir: in hepatitis. May/June 120

Low-income

Low-income children

caries in, and water fluoridation, Sept./Oct. 225-226

dental care utilization by, July/Aug. 181
patients, and regular check-ups, Sept./Oct. 229
Lubrication: of handpiece after sterilization. Nov./Dec. 290

Lungs: effect of oral bacteria on, Nov./Dec. 263
Luting agents

mechanical properties of, change over time, July/Aug. 178

for posts, passive parallel-sided, July/Aug. 164 for prosthodontics, fixed, May/June 107 selection of, Jan./Feb. 19–20

Luxation: treatment, Jan./Feb. 11 Lyme disease, July/Aug. 170

M

Madajet XL injection system, Mar./Apr. 57 Malignancy (See also Cancer)

periapical, diagnosis, July/Aug. 155–156

Malignant transformation: of oral lichen planus, Nov./Dec. 283

Managed care: ethical behavior of dentists in, July/Aug. 167 Mandibular

advancement

appliance in supine-dependent sleep apnea, May/ June 124

splints, minor dental side effects of, Nov./Dec. 292-293

incisors

canal morphology in, Jan./Feb. 32-33 lost to periodontitis, reinforced composite-bonded bridges replacing, July/Aug. 183–184

ridge preservation with implant-supported dentu Nov./Dec. 281

Manuscript: acceptance by journals, improving odds of, May/June 118

Maxillary

central incisal edge holds key to esthetic treatment planning, Nov./Dec. 257–258

deficiency, severe cleft, distraction osteogenesis in, in children, Mar./Apr. 82

vestibule leukoplakia, association with Viadent, May/June 129

Maxillofacial infections: treatment of, and antibiotic resistance, Sept./Oct. 210–211

Mechanical therapy: combined with locally delivered antibiotics, May/June 133

Medical problems: and amalgam illness, Nov./Dec. 260-261

Medicaments: endodontic, not supported by research, Jan./Feb. 9

Medicine

in dentistry, Jan./Feb. 4-5 folk, Mar./Apr. 95

integrating dentistry into, rationale for, May/June 140
Melanin-pigmented gingiva: improved treatment for,

May/June 123-124

Membranes, bioabsorbable barrier polylactic acid, in guided tissue regeneration for root coverage, May/June 144–145

results of two types, Nov./Dec. 287

Men attendance for regular check-ups by, Sept./Oct. 229 young, noncompliance with periodontal maintenance, Nov./Dec. 286–287

Menstrual irregularities: after occupational exposure to mercury, July/Aug. 153

Mercury

exposure, Nov./Dec. 260 in children, Sept./Oct. 231

occupational, effect on reproduction, July/Aug. 153 levels, brain, and amalgam restorations, May/June 126 toxicity, Nov./Dec. 261

Metal restorations: cast, factors that influence design of, May/June 113

Metastasis: after late diagnosis of carcinoma in poorly healing extraction sites, Jan./Feb. 38

Methemoglobinemia: due to local anesthetics and sedatives, July/Aug. 146

Methyl methacrylate monomer exposure: causing neuropathy in dental technician, Sept./Oct. 206

/amoxicillin as only treatment in periodontal disease, Mar./Apr. 87

gel for periodontitis, Jan./Feb. 39–40; July/Aug. 161 for persistent periodontal pockets, May/June 133 hearing loss due to, temporary, Sept./Oct. 211

for periodontitis, rapidly progressive, Mar./Apr. 64 Michigan-type occlusal splint: to stabilize occlusion and protect teeth and restorations from parafunction, July/Aug. 151

Microbial

shift after radiation therapy of head and neck, management of, Sept./Oct. 214 tests in diagnosis of periodontal disease, Nov./Dec. 266 Microetching: causing white spots, removal of, Jan./Feb. 16
Microscopes: surgical, incorporating into dental treatment,
Mar./Apr. 59–60

Microwave mechanics, Jan./Feb. 26

guidelines for, Jan./Feb. 7

oral, interactions with other drugs, July/Aug. 147 syrup, oral, ps. parenteral midazolam, July/Aug. 147

bone, density, in older adults exposed to various levels of fluoride, Jan./Feb. 33

trioxide aggregate

clinical uses for, July/Aug. 149 endodontic applications of, Nov./Dec. 255-256 as root-end filling material, July/Aug. 149

Minocycline gel

for periodontitis, July/Aug. 161 for persistent periodontal pockets, May/June 133

Modafinil: review of, Sept./Oct. 210

Models: economic and statistical, for prophylactic third molar extraction, July/Aug. 156

Molar

replacement, implant, 5-year results, Sept./Oct. 230–231 third, extraction (see Extraction, molar, third) uprighting without extrusion, orthodontic, July/Aug. 159–160

Monoamine oxidase inhibitors: interactions with vasoconstrictors, Sept./Oct. 208

Morbidity: with outpatient anesthesia, Sept./Oct. 223 Morphology: canal, in mandibular incisors, Jan./Feb. 32–33 Mortality: with outpatient anesthesia, Sept./Oct. 223 Mortality: with outpatient anesthesia, Sept./Oct. 223

burning

diagnosis and management, July/Aug. 178–179 syndrome, idiopathic, local application of clonazepam in, Mar/Apr. 86

sore, diagnosis and management, July/Aug. 178-179 Mouthguards

orofacial injuries in high school athletes who do not use, Sept./Oct. 228–229 in prevention of dental trauma. Jan./Feb. 12

Mouthrinse

chlorhexidine, alcohol-free, Mar./Apr. 85 supragingival plaque control with, July/Aug. 165–166

Mucosa, oral conditions, common, diagnosis and management, July/Aug. 157-158

contact allergy affecting, Jan./Feb. 15

lesions after anesthesia, local, prevention and management, Jan./Feb. 7

chronic nonspecific, diagnosis and treatment, July/ Aug. 154–155

Mucositis

peri-implant, definition of, May/June 105 after radiation therapy of head and neck, management of, Sept./Oct. 214

Multiple sclerosis: and amalgam, Jan./Feb. 37 Mutans streptococci: effect of toothbrushing with chlorhexidine gel on, in toddlers, Sept./Oct. 239 Myofascial pain: after use of mandibular advancement

splints, Nov./Dec. 292

N

Nadolol: interaction with vasoconstrictors, Sept./Oct. 208 Nd:YAG laser

osteonecrosis due to thermal injury from, May/June 106 plus fluoride varnish, effect on dentin hypersensitivity, Sept./Oct. 234–235

Neck radiation therapy: caring for patients before and after, Sept./Oct. 214–215 Needle(s)

broken, during local anesthesia injection, prevention and management, Jan./Feb. 6

hypodermic, practical uses beyond injections, July/Aug. 148

no-pain, Jan./Feb. 26

safety, assessment of, Nov./Dec. 277

Needlestick rate: with safety needles, Nov./Dec. 277 Neglect: dental, as child abuse, Jan./Feb. 28

Neoplasia: benign periapical, diagnosis, July/Aug. 155 Nerve

damage after third molar extraction under general anesthesia, Sept./Oct. 234

facial, paralysis, after local anesthesia, prevention and management, Jan./Feb. 6–7

Neuronal blockers: adrenergic, interaction with vasoconstrictors, Sept./Oct. 209

Neuropathy: methyl methacrylate monomer exposur causing, in dental technician, Sept./Oct. 206

Neutral protease activity: Periocheck assay of, May/June 135 Niacin lipid-lowering treatment: causing dental and gingival pain, May/June 110

Nickel titanium archwires: limitations of, Nov./Dec. 264
Nifedipine: causing gingival hyperplasia, May/June 135–136
Nite White Excel: comparison study, July/Aug. 176–177
Nitrous oxide exposure: during prepanacy, Jan./Feb. 18
NMR Ling-Poile: Senr. (Oct. 230–231)

NMR LipoProfile, Sept./Oct. 220–221
Nonpayment: small claims court for dealing with, July/Aug. 169

Nutrition: fetal, Nov./Dec. 274–275 Nutritional deficiencies: causing burning or sore mouth, July/Aug. 179

O

Occlubrush, Nov./Dec. 291–292 Occlusal

amalgam margin angle, May/June 128 changes after mandibular advancement splint use, Nov./Dec. 292

guard in prevention of edentulous ridge trauma, Nov./Dec. 271

splints to stabilize occlusion and protect teeth and restorations from parafunction, July/Aug. 151 stresses, Artglass composite unsuitable for restorations subjected to, May/June 127

Occlusin restorations: 10-year durability of, Jan./Feb. 44-45 Occlusion

effect on design of cast metal restorations, May/June 113 occlusal splints to stabilize, July/Aug. 151 temporomandibular disorders and, American Equilibration Society position paper on, May/June 115–116

Occupational
exposure to mercury, effect on reproduction, July/Aug.
153

15.3
transmission of hepatitis C, Sept./Oct. 205
Office: dental, disinfecting surfaces in, Nov./Dec. 259
One-Step: microleakage study, Nov./Dec. 283

One-Step: microleakage study, Nov./Dec. 283 Onlays
Empress, 4-year results, Sept./Oct. 241–242
in posterior restorations, July/Aug. 187

Online continuing education options: evaluation of, Sept./Oct. 216–217

Opalescence Whitening Gel: comparison study, July/Aug. 176–177

Opioid analgesics: during pregnancy, Jan./Feb. 18 Optibond FL: microleakage study, Nov./Dec. 282 Oral

Dral bacteria, effect on lungs, Nov./Dec. 263 cancer (see Cancer, oral)

care products causing chronic nonspecific mucosal lesio diagnosis and treatment, July/Aug. 155 infection related to systemic diseases, May/June 109 lichen planus

diagnosis and management, July/Aug. 158 malignant transformation of, Nov./Dec. 283

lichenoid lesions due to amalgam contact hypersensitivity, July/Aug. 157

manifestations of eating disorders, May/June 104 mucosa (see Mucosa, oral)

pathologist, cost-effectiveness of early referral to. Sept./Oct. 233

sedative use, clinician's guide to, Jan./Feb. 7-8 surgery, outpatient anesthesia in, morbidity and mortality with, Sept./Oct. 223

Organs: creating new, July/Aug. 170

Orofacial

injuries in high school athletes, Sept./Oct. 228-229 pain, in elderly, Sept./Oct. 236

Orthodontic

appliances, streptococci in, group A β-hemolytic, Jan./Feb. 37-38

molar uprighting without extrusion, July/Aug. 159-160 treatment

cervical resorption and, invasive, July/Aug. 175 esthetic enhancement after, Nov./Dec. 257

of patients with temporomandibular joint disorders. enhanced informed consent for, Sept./Oct. 206-207 retention after, long-term, Mar./Apr. 63-64

Osteogenesis: distraction, in children with severe cleft maxillary deficiency, Mar. /Apr. 82 Osteonecrosis: due to thermal injury from laser treatment,

May/June 106

Osteoporosis drugs: interaction with drugs used in dental care, Mar. /Apr. 67

Osteoradionecrosis: management of, Sept./Oct. 214-215 Osteotomy: segmental, correction of malpositioned implant with, Jan./Feb. 14

Otoscope: improved dental care with, Jan./Feb. 12 Ototoxicity: transient, due to metronidazole, Sept./Oct.

211 Outpatient anesthesia: morbidity and mortality with,

Sept./Oct. 223 Overdentures: and alveolar bone loss, Jan./Feb. 20 Overtreatment, Nov./Dec. 250-253

P-30 restorations: 10-year durability of, Jan./Feb. 44-45 Pain

study, July/Aug. 176-177

Plug: apical, mineral trioxide aggregate (in dog), July/Aug.

Pocket-Watch test, Mar./Apr. 65; Nov./Dec. 266

Polishing: of questionable amalgam restoration, effect on replacement decision, Nov./Dec. 289-290 Politics: and fluoridation, Jan./Feb. 49

Polyacid-modified resins: in children, Mar./Apr. 70 Polycarboxylate: indications for, May/June 107 Polyethylene glycol/interferon: in hepatitis, May/June 120

Polyglycolic acid/polylactic acid copolymer membrane results with, Nov./Dec. 287

Polylactic acid membrane, bioabsorbable, in guided tissue regeneration for root coverage, May/June 133-134

/polyglycolic acid copolymer membrane, results with, Nov./Dec. 287

Poor patients (see Low-income) Porphyromonas gingivalis

detection by Evalusite immunoassay, May/June 134 in periodontitis patients, Mar./Apr. 90

Position paper: American Equilibration Society, on occlusion and temporomandibular disorders, May/June 115-116

carbon-fiber, fracture resistance of, Mar./Apr. 92 cast, fracture resistance of, Mar./Apr. 92 passive, parallel-sided, for restoration of endodontically treated teeth, July/Aug. 164 titanium, on radiographs, May/June 102 Postoperative bleeding, effect of preoperative tranexamic acid on, Nov./Dec. 284 dental pain, acupuncture in prevention of Sept. /Oct. 222 instructions for patients, simplification of, May/June pain, acute, tramadol for, Nov./Dec. 269-270 telephone calls, effect on pain perception, Jan./Feb. 39 Practice dental e-mail use by dentists in, May/June 118-119 scheduling system, efficient, development of, Mar./Apr. Pregnancy: guide to dental drug use during, Jan./Feb. 18 Premolar extraction: esthetic effect of, Nov./Dec. 263-264 Preprosthetic surgery: when to incorporate into treatment plan, Mar./Apr. 69 Principle, Nov./Dec. 262 Prison overcrowding: in U.S., Sept./Oct. 221 Processing: improper, as leading cause of excessive bitewing exposure, July/Aug. 185–186 Propoxyphene: during pregnancy, Jan./Feb. 18 Propranolol: interaction with vasoconstrictors, Sept./Oct. 208 Prostaglandin E2: crevicular fluid levels of, Mar./Apr. 88-89 fixed, implant-supported, step-by-step sequence for, Nov./Dec. 258-259 nonmetallic, nonceramic, fiber-reinforced composite material for, Mar. /Apr. 68 removal, straightforward technique, Jan./Feb. 21 supported by both implants and natural teeth, preventing tooth intrusion in, Jan./Feb. 22 type, effect on alveolar bone loss, Jan./Feb. 20-21 Prosthodontics: fixed, luting agents for, May/June 107 activity, neutral, Periocheck assay of, May/June 135 inhibitors, interactions with drugs used in dental care, Mar./Apr. 67 Protective gear: personal, during ultrasonic scaling, Jan./Feb. 35 Provigil: review of, Sept./Oct. 210 PST, Nov./Dec. 266 Psychiatric disease and burning or sore mouth, July/Aug. 179 medication for burning or sore mouth, July/Aug. 179 Psychological problems: and amalgam illness, Nov./Dec. 260-261 Public health policy implications: of prophylactic third molar extraction, July/Aug. 156 Pulp capping deciding between endodontic treatment and, Jan./ Feb. 24

procedures, Nov./Dec. 272-273

Purchases: by dental practices, Mar./Apr. 74

vital, therapy, mineral trioxide aggregate in (in monkey), July/Aug. 149

Pulpalgia treatment: Stabident during, Mar./Apr. 79

Quackery: dental, through the ages, Mar./Apr. 95 Quaternary ammonium mouthrinse: for supragingival plaque control, July/Aug. 165

R

Radiation therapy: head and neck, caring for patients before and after, Sept./Oct. 214-215 Radiography

bitewing examination, routine, two vs. four film, in young adults, Nov./Dec. 288-289 equipment, standard, in assessment of bone growth spurt,

Jan./Feb. 16-17

in evaluation of implant framework fit, Mar./Apr. 60 features of endodontically treated teeth with vertical fractures, Nov./Dec. 280

images, digital, security issues with, July/Aug. 162 pretreatment, effect on treats patients, Jan./Feb. 44

processing, improper, as leading cause of excessive bitewing exposure, July/Aug. 185-186 titanium posts on, May/June 102

ps. CT for vertical root fractures, May/June 122 Radiology systems: filmless, pros and cons, Jan./Feb. 22-23 Redilon: bond strength between denture teeth and May/June 136

Referral

to oral pathologist, early, cost-effectiveness of, Sept./Oct.

patterns, endodontic, in HMO setting, Sept./Oct. 226 surgical, for implant placement, trends in, July/Aug. 177

periodontal, vs. periodontal repair, May/June 110-111 guided (see Guided tissue regeneration)

in periodontal disease, Mar./Apr. 65 Rehabilitation: dental, effect on growth of children with early childhood caries, Nov./Dec. 285-286

RelyX, Nov./Dec. 261-262 Remineralization of enamel: and sucrose-sweetened chewing gum, Jan./Feb. 31

Repetitive stress: car ing career-ending ergonomic injury, Sept./Oct. 216

Reporting

of adverse drug interactions, May/June 112 of suspected cases of child abuse, Jan./Feb. 28 Reproduction: effect of occupational exposure to mercury

on, July/Aug. 153 Resin(s)

-based cements, Nov./Dec. 261-262

BIS-GMA-based, safety of, May/June 107-108

Class II, directed shrinkage and incremental filling techniques comparable for, Mar./Apr. 93 indications for, May/June 107 polishing brushes for, rotary, Nov./Dec. 291-292 posterior, durability of, 10-year, Jan./Feb. 44-45

posterior, successful use of, Jan./Feb. 23-24 repaired, bond strength, effect of surface abrasion and bonding agents on, Jan./Feb. 47

as root-end filling material, July/Aug. 148 liners, adhesive, under amalgams, effect on sensitivity, Mar./Apr. 93-94

modified glass ionomer (see Glass, ionomer, resinmodified)

polyacid-modified, in children, Mar./Apr. 70 Resolut: results with, Nov./Dec. 287

Resorption: invasive cervical, factors predisposing to, July/Aug. 175

Respiratory disease: due to oral bacteria, Nov./Dec. 263 Restoration(s)

amalgam (see Amalgam) cast metal, factors that influence design of, May/June 113 Class II

Dyract, in primary teeth, Nov./Dec. 291 replacement, cost of amalgam vs. composite for, Sept./ Oct. 241

composite (see Composites)

Dicor, long-term survival, Mar./Apr. 91 glass ionomer, secondary caries rate after, Sept./Oct. 240 parafunction, occlusal splints as protection from. July/Aug. 151

placement of, complete removal of carious dentin before May/June 137

posterior, inlays and onlays in, July/Aug. 187 subjected to occlusal stresses, Artglass composite unsuitable for, May/June 127 tunnel, for proximal caries, July/Aug. 186-187

Restorative dental treatment, surgical emphysema after, Nov./Dec. 262

material(s)

fluoride release from, mechanisms, Jan./Feb. 14-15 Galloy unsuitable as, May/June 127-128 procedures in dentally anxious patients, and behavioral management, Sept./Oct. 224

Retainers, Mar./Apr. 63-64

Retention: long-term, after orthodontic treatment, Mar./Apr. 63-64

Retirement planning: by dentists, Nov./Dec. 278 Retraction cords: gingival, clinical study, July/Aug. 185 Ribavirin/interferon: in hepatitis, May/June 120 Ridge

augmentation, periodontal plastic surgery procedures for. Nov./Dec. 267

edentulous, trauma, occlusal guard to prevent, Nov./Dec mandibular, preservation with implant-supported

dentures, Nov./Dec. 281 preservation, periodontal plastic surgery procedures for, Nov./Dec. 267

Rinse, mouth

chlorhexidine, alcohol-free, Mar./Apr. 85 apragingival plaque control with, July/Aug. 165-166

Risk assessment: incorporation into periodontal treatment planning, Nov./Dec. 265

Risperidone: interaction with vasoo strictors, Sept./Oct. 208-209

Rofecoxib: for acute pain, Nov./Dec. 269

Root

canal irrigant, 2% chlorhexidine as, July/Aug, 176 coverage

periodontal plastic surgery procedures for, Nov./ Dec. 267 procedures based on amount of keratinized tissue

needed, May/June 133-134 -crown fracture, treatment, Jan./Feb. 11

filling, mineral trioxide aggregate for (in animals), July/ Aug. 149

filling materials, current and future, July/Aug. 148-149 preparations, ultrasonically prepared, low rate of cracking in, Nov./Dec. 280-281 fracture (see Fracture, root)

perforations, mineral trioxide aggregate for, July/Aug. 149

planing analgesic use after, short-term, Sept./Oct. 236-237 for periodontitis, rapidly progressive, Mar./Apr. 64 ps. Atridox, Nov./Dec. 286

Rotary polishing brushes: for composite polishing, Nov./Dec. 291-292

dam, clinical tips, May/June 115 retainers, removable, Mar./Apr. 63

Rugae: palatal, easy technique for adding to complete denture, May/June 113

SafeMate, Nov./Dec. 277 Safety needles: assessment of, Nov./Dec. 277 SafetyPlus, Nov./Dec. 277

Saliva: secret of, July/Aug. 170

Salivary calcium levels: high, and worse gingival health but better dental health, Mar./Apr. 90-91

Salivation: excessive, after use of mandibular advancement splints, Nov./Dec. 292

Sanguinarine: for supragingival plaque control, July/Aug.

Scaffold: bone, May/June 120

Scaling

analgesic use after, short-term, Sept./Oct. 236-237 for periodontitis, rapidly progressive, Mar./Apr. 64 ultrasonic, high-volume evacuator and personal protective gear advised during, Jan./Feb. 35

vs. Atridox, Nov./Dec. 286

Scanning: digital, pros and cons, Jan./Feb. 22

Scent: of flowers, Nov./Dec. 275

Scheduling system: effective practice, development of, Mar./Apr. 75

children, socially deprived, caries prevention with twiceyearly fluoride varnish applications in, Sept./Oct. 239-240

dental

demographic changes in, Mar./Apr. 73 learning how to touch patients in, Sept./Oct. 218-219 high school athletes, orofacial injuries in, Sept./Oct. 228-229

Sclerosis: multiple, and amalgam, Jan./Feb. 37 Scotchbond Multi-Purpose

microleakage study, Nov./Dec. 283

Plus under amalgams, effect on sensitivity, Mar./Apr. 93-94

Screw

one-screw test for implant framework fit, Mar./Apr. 60 resistance test for implant framework fit, Mar./Apr. 60 Scalants: pit and fissure, advances in, July/Aug. 163

Security issues: with digital radiography images, July/Aug 162

interactions with other drugs, July/Aug. 146-147 oral, clinician's guide to use of, Jan./Feb. 7-8 during pregnancy, Jan./Feb. 18

dentin, effect of Pain-Free and DentinBloc on, Sept./Oct.

effect of copal varnish and adhesive resin liners under amalgams on, Mar./Apr. 93-94

after radiation therapy of head and neck, management of, Sept./Oct. 214 temperature, comparison of cavity liners for prevention,

Jan./Feb. 46-47 Shades: matching, Colorimeter 15. visual means of,

Mar./Apr. 94 Shrinkage: directed, for Class II composites, Mar./Apr. 93

Sildenafil interactions with drugs used in dental care, Mar./Apr. 67

review of, Sept./Oct. 210 Single Bond: microleakage study, Nov./Dec. 283

Sleep apnea

obstructive, mandibular advancement splints for, m dental side effects of, Nov./Dec. 292-293 supine-dependent, mandibular advancement appliance in.

May/June 124 Sleeves: stainless steel, surgical guide with, in implant

placement, 13 Smile patterns: classification of, Sept./Oct. 199 Smoking

effect on periodontal disease, relation to tumor necrosis factor-α in crevicular fluid, Nov./Dec. 288

periodontal disease and, Sept./Oct. 207-208 periodontal maintenance program results and, Mar./Apr.

Snakes: let sleeping snakes lie, Nov./Dec. 275 Snoring: mandibular advancement splints for, minor dental side effects of, Nov./Dec. 292-293

Socially deprived schoolchildren: caries prevention with twice-yearly fluoride varnish applications in, Sept./Oct. 239-240

Sodium hypochlorite

effect on bacteria and biofilms in dental unit water, May/June 125 use in endodontics. Ian. /Feb. 9

around implants, preventive maintenance of, May/June 105-106

injury due to local anesthesia, prevention and management, Jan./Feb. 6

Solobond: microleakage study, Nov./Dec. 282 Sore mouth: diagnosis and management, July/Aug. 178-179

Space dentistry, Sept./Oct. 220

Special Bond: Concept inlays and onlays in posterior restorations placed with, July/Aug. 187

Splints

mandibular advancement, minor dental side effects of, Nov./Dec. 292-293

occlusal, to stabilize occlusion and protect teeth and restorations from parafunction, July/Aug. 151 Spring retainers, Mar./Apr. 63

Stabident, Mar./Apr. 57

during pulpalgia treatment, Mar./Apr. 79

Staffing: of dental practices, Mar./Apr. 74

Stainless steel sleeves: surgical guide with, in implant placement, 13

Staphylococcus aureus infections: maxillofacial, antib resistance in, Sept./Oct. 210

models for prophylactic third molar extraction, July/Aug. 156 significance, difference between clinical significance and,

Mar./Apr. 73 Steel: stainless steel sleeves, surgical guide with, in implant placement, 13

Sterilized handpiece: lubrication of, Nov./Dec. 290 Steroids (see Corticosteroids)

Storage phosphor systems: pros and cons, Jan./Feb. 23 Streptococci

group A β-hemolytic, in toothbrushes and orthodontic appliances, Jan./Feb. 37-38

mutans, effect of toothbrushing with chlorhexidine gel on, in toddlers, Sept./Oct. 239 Streptococcus mutans

alcohol-free chlorhexidine effective against, Mar./Apr. 85 elimination of, Jan./Feb. 26 increase after periodontal therapy, and caries risk,

Sept./Oct. 238

dentist, Nov./Dec. 274

occlusal. Artulass composite ur itable for restorations subjected to, May/June 127

repetitive, causing career-ending ergonomic injury Sept./Oct. 216

Stripping: interdental, preventing white spot formation during, Jan./Feb. 16 Subgingival fluoride application: to nonintact tissues, and

risk of toxicity, July/Aug. 161-162 Substance abuse disorders: among dentists, coming to terms

with, Jan./Feb. 29 Sucrose-sweetened chewing gum: and remineralization of

enamel, Jan. /Feb. 31 Sulfur compounds: volatile, and periodontal health and bad

breath, Nov./Dec. 268 Sunscreen: lip, in prevention of lip cancer, July/Aug. 154

Super-ERA endodontic surgery with, short-term results, May/June

as root-end filling material, July/Aug. 148

Supine-dependent sleep apnea: mandibular advancement appliance in, May/June 124

Supragingival plaque control: with antibacterial agents, July/Aug. 165-166

abrasion, effect on bond strength in repaired composite restorations, Jan./Feb. 47

disinfection in dental office, Nov./Dec. 259

Surgery

endodontic, with Super-EBA, short-term results, May/June 123

oral, outpatient anesthesia in, morbidity and mortality with, Sept./Oct. 223

plastic, procedures, review of, Nov./Dec. 267-268 preprosthetic, when to incorporate into treatment plan, Mar./Apr. 69

Surgical

emphysema after restorative dental treatment, Nov./Dec 262

guide sleeves, stainless steel, in implant placement, Jan./Feb. 13

microscopes, incorporating into dental treatment, Mar./Apr. 59-60

referral trends for implant placement, July/Aug. 177 telescope selection, declination angle as key factor in, Nov./Dec. 254-255

Swallowing: of toothpaste by young children, Sept./Oct.

Syncope: after outpatient anesthesia, Sept./Oct. 223 Synthroid: interaction with vasoconstrictors, Sept./Oct. 209 Systemic diseases

oral infection and, May/June 109 periodontal disease and, Sept./Oct. 208

Tactile methods: of evaluating implant framework fit, Mar./Apr. 60

Taste alteration: after radiation therapy of head and neck, management of, Sept./Oct. 214

Technician: dental, neuropathy due to methyl methacrylate monomer exposure in, Sept./Oct. 206

Teeth

abutment, guided tissue regeneration results in, longterm, July/Aug. 182

congenitally missing, management after completic orthodontic treatment, Nov./Dec. 257-258

crowding, management without orthodontic treatm Nov./Dec. 256

damage from eating disorders, May/June 104

display, and maxillary central incisor edge, Nov./Dec. 258 endodontically treated fractures in, vertical, clinical and radiographic features

of, Nov./Dec. 280 restoration with passive parallel-sided posts, July/Aug. 164

implant combination as abutments for posterior fixed partial dentures, Sept./Oct. 230

ntrusion, prevention in prostheses supported by both implants and natural teeth, Jan./Feb. 22

mobile, preventing extraction while making impressions, Sept./Oct. 213 parafunction, occlusal splints as protection from,

July/Aug. 151 posterior, guidelines for composites used in, Sept./Oct. 213-214

primar

Dyract Class II restorations in, Nov./Dec. 291 fluorosis in, and fluorosis in permanent teeth, July/ Aug. 160

vorn, restoration with adhesive techniques, July/Aug. 163-164 Telephone calls: postoperative, effect on pain perception,

Jan./Feb. 39 Telescope: surgical, declination angle as key factor in selection of, Nov. /Dec. 254-255

Temperature sensitivity: comparison of cavity liners for prevention, Jan. /Feb. 46-47 Temporomandibular joint disorders controversy, academic viewpoint, Jan./Feb. 25 management, conservative approach to, Mar./Apr. 71 occlusion and, American Equilibration Society position paper on, May/June 115-116 orthodontic treatment of patients with, enhanced informed consent for, Sept./Oct. 206-207 whiplash and, Mar./Apr. 72 dysfunction acupuncture in, July/Aug. 188 Chlamydia trachomatis and, Sept./Oct. 243-244 pain after use of mandibular advancement splints, Nov./Dec. 292 TePe interdental brushes, Nov./Dec. 279 Tetracycline fibers combined with mechanical therapy, May/June 133 in periodontal disease, Mar./Apr. 65 during pregnancy, Jan. /Feb. 18 Thalidomide: review of, Sept./Oct. 210 Thermal injury: from laser treatment causing osteonecrosis. May/June 106 Thermometer: improved dental care with, Jan./Feb. 12 Thermoplastic retainers: Clear Essix, Mar./Apr. 63 Thermoscan thermometer: improved dental care with. Jan./Feb. 12 Thorazine: interaction with vasoconstrictors, Sept./Oct. 208-209 Thyroid hormones: interaction with vasoconstrictors Sent. /Oct. 209 Tips: light-curing, effects of autoclaving on, Jan./Feb. 46 Tissue connective (see Graft, connective tissue) destruction in pathogenesis of periodontal disease, Sept./Oct. 207 keratinized, root coverage procedures based on amount of tissue needed, May/June 133-134 nonintact, risk of toxicity with subgingival fluoride application to, July/Aug. 161-162 regeneration guided (see Guided tissue regeneration) in periodontal disease, Mar./Apr. 65 soft around implants, preventive maintenance of, May/June 105-106 injury due to local anesthesia, prevention and management, Jan./Feb. 6 Titanium archwires, nickel, limitations of, Nov./Dec. 264 posts, on radiographs, May/June 102 TNF-a: crevicular fluid, in periodontal disease, and smoking, Nov./Dec. 288 Tobacco chewing: and oral cancer, May/June 130 Toddlers: effect of toothbrushing with chlorhexidine gel on mutans streptococci in, Sept./Oct. 239 Tofranil: interaction with vasoconstrictors, Sept./Oct. 208

Tomography: computed, ps. radiography for vertical root fractures, May/June 122

Tongue: geographic, July/Aug. 179 Tooth (see Teeth)

Toothbrush

bristle endrounding, relation to gingival abrasion, Jan./Feb. 43 streptococci in, group A β-hemolytic, Jan./Feb. 37-38 use like a toothpick removes interdental plaque, Jan./Feb.

42-43 Toothbrushing: with chlorhexidine gel, effect on mutans streptococci in toddlers, Sept./Oct. 239

Toothpaste

Enamelon, FDA approval of, May/June 111 swallowing by young children, Sept./Oct. 227

Toothpick method: of toothbrushing removes interdental plaque, Jan. /Feb. 42-43

Toradol: vs. acetaminophen/codeine for acute apical periodontitis pain, July/Aug. 179-180

Total etch technique: of vital pulp capping, Nov./Dec. 272-273 Touching of patients: learning in dental schools, Sept./Oct.

218-219 Toxicity

mercury, Nov./Dec. 261

risk after subgingival fluoride application to nonintact tissues, July/Aug. 161-162

Traffic: happy, May/June 121

Tramadol: for acute postoperative pain, Nov./Dec. 269-270 Tranexamic acid: preoperative, effect on postoperative

bleeding, Nov./Dec. 284 Trash: astro. Nov. /Dec. 275

Trastuzumab: review of, Sept./Oct. 210 Trauma

(See also Injuries)

dental cervical resorption and, invasive, July/Aug. 175 prevention, Jan./Feb. 12

treatment, Jan./Feb. 10-12

edentulous ridge, occlusal guard to prevent, Nov./Dec. 271

Treatment errors: revealing to patients, ethical issues of, May/June 117

Trevalon

bond strength between denture teeth and, May/June 136 HI, bond strength between denture teeth and, May/June

Trials: clinical, importance of, May/June 139 Triamcinolone injection: for oral lichen planus, July/Aug. 158

Triazolam in children, Sept./Oct. 223-224

guidelines for, Jan./Feb. 7 Triclosan

for hand washing, Jan./Feb. 29-30

in mouthrinses for supragingival plaque control, July/Aug. 165 in periodontal disease, Mar./Apr. 65

resistance to, Mar./Apr. 77 Tricyclics: interactions with vasoconstrictors, Sept./Oct. 208 Trismus

after anesthesia, local, prevention and management, Jan./Feb. 6

after radiation therapy of head and neck, management of, Sept./Oct. 215

Tuberculocidal disinfectants: in dental office, Nov./Dec. 259

Tuberculosis, Sept. /Oct. 245

Tumor necrosis factor α: crevicular fluid, in periodontal disease, and smoking, Nov./Dec. 288

Tunnel restorations: for proximal caries, July/Aug. 186-187 Tytin: 25. Dyract Class II restorations in primary teeth, Nov. /Dec. 291

Illcers

aphthous, recurrent diagnosis and management, July/Aug. 157-158 new palliative treatment for, May/June 131-132 herpes simplex virus, intraoral, recognition of, Mar./Apr.

Ultrafloss, Nov./Dec. 279 UltraSafe, Nov./Dec. 277

Ultrasonic

preparations, root-end, low rate of cracking in, Nov./Dec. 280-281

scaling, high-volume evacuator and personal protective gear advised during, Jan./Feb. 35

Undertreatment, Nov./Dec. 250-253 Uprighting: orthodontic molar, without extrusion, July/Aug. 159-160

Vaccination: hepatitis B, July/Aug. 152 Valium guidelines for, Jan./Feb. 7 interactions with other drugs, July/Aug. 146-147 Variolink II, Nov./Dec. 261 Varnish copal, under amalgams, effect on sensitivity, Mar./Apr. 93-94

fluoride in infants and small children, Sept./Oct. 212

plus Nd:YAG laser, effect on dentin hypersensitivity, Sept./Oct. 234-235 twice-yearly applications in socially deprived

schoolchildren, effect on caries, Sept./Oct. 239-240 Vascular disease: peripheral, periodontal disease as risk factor for, Jan./Feb. 41

Sept./Oct. 208-209

Vasopressors: in cardiac patients, Mar./Apr. 78 Veneers: in management of tooth crowding, Nov./Dec. 256 Versed (see Midazolam)

Vestibule: maxillary, leukoplakia of, association with Viadent, May/June 129

Viadent: association with leukoplakia of maxillary vestibule, May/June 129

Viagra interaction with drugs used in dental care, Mar./Apr. 67 review of, Sept./Oct. 210 Vioxx: for acute pain, Nov./Dec. 269

Virus(es) hemorrhagic, Sept./Oct. 245

hepatitis (see Hepatitis) herpes simplex virus ulcers, intraoral, recognition of, Mar./Apr. 84

immunodeficiency, human, Sept./Oct. 245 setback, Sept./Oct. 220

Visit: dental, first impressions count at, July/Aug. 168-169 Visual ps. Colorimeter methods: of matching shades. Mar./Apr. 94

Vitamin B₁₂: for burning or sore mouth, July/Aug. 179 Vitremer Tri-Cure: in children, Mar./Apr. 70

Warfarin: interaction with drugs used in dental care, Mar./Apr. 67

Water

-based luting agents, mechanical properties of, change over time, July/Aug. 178

caries in children and, Sept./Oct. 225-226 caries rates before and after, Jan./Feb. 34 politics and Jan /Feb. 49 as public health achievement, Nov. /Dec. 274

fluoride release from restorative materials and, Jan./Feb.

unit, dental, disinfectants in, effect on bacterial and biofilms, May/June 125-126

Wear: parafunctional, occlusal splints to protect teeth and restorations from, July/Aug. 151

Weight loss drugs: interaction with drugs used in dental care, Mar./Apr. 67

Whiplash: and temporomandibular disorders, Mar./Apr. 72

White spot lesions: preventing and removing, Jan./Feb. 16 Wine making, July/Aug. 171

Chlamydia trachomatis and temporomandibular joint dysfunction in, Sept./Oct. 243-244 dental education and, Mar./Apr. 74 Workers: health care, latex allergy in, May/June 103

Worn dentition: restoration with adhesive techniques, July/Aug. 163-164

Xerography: pros and cons, Jan./Feb. 22

after radiation therapy of head and neck, management of, Sept./Oct. 214

after splint use, mandibular advancement, Nov./Dec. 292

X-ray (see Radiography)

Xylitol-containing chewing gum, Nov./Dec. 293 Xylocaine spray: before surgical treatment of melanin-

pigmented gingiva, May/June 123

YAG laser

Er:, effect on cementum, Mar./Apr. 81-82

Nd.

osteonecrosis due to thermal injury from, May/June 106

plus fluoride varnish, effect on dentin hypersensitivity, Sept./Oct. 234-235

Zamboni facts, May/June 121

oxide cement, reinforced, as root-end filling material, July/Aug. 148

phosphate cement

indications for, May/June 107

for luting posts, passive parallel-sided, July/Aug. 164 mechanical properties of, change over time, July/Aug. 178

polycarboxylate cement, mechanical properties of, change over time, July/Aug. 178

STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION (Required by 39 U.S.C. 3685). 1. Title of Publication: Dental Abstracts. 2. Publication number: 153-780. 3. Date of filing: October 1, 1999. 4. Frequency of issue: Bimonthly. 5. No. of issues published annually: 6. 6. Annual subscription price: \$52.00. 7. Location of known office of publication: Mosby, Inc., 11830 Westline Industrial Drive, St. Louis, MO 63146-3318. 8.
